## *Gifted Resources News*

ShaneCollege.com

### **WODONGA, ALBURY, WANGARATTA, SYDNEY**

I had a wonderful time! I wanted to write a full report for this edition of the newsletter but there have been a number of other things to catch up with since arriving home and so have not done it yet.

### **SPRITE'S SITE BLOG**

Maxine Cowie of Starjump will be a contributor to Sprite's Site Blog giving wise advice about issues which concern Visual Spatial Learners. She will use the pseudonym of a starfish which is the Starjump logo.

Sprite is my little twice exceptional cartoon character. She is the Poster Child for my Feetspeak: 2E shoes presentations. She is always depicted as having an injured ankle and needing to wear different shoes on each foot to illustrate the concept that she needs educational provisions for both her giftedness and her learning difference and disability.

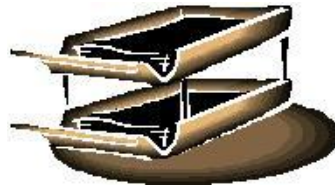

I use Sprite's Site Blog to present information about gifted and 2E characteristics, programs, books, events etc and to have fun with a few amusing anecdotes and flights of fancy about Sprite.

We have covered a few heavy topics there also such as the Black Dog series of entries about depression.

At the moment I am writing entries about Dabrowski's Overexcitabilities. I was hoping to have those entries finished before I sent out this newsletter. That has not happened yet either but they should be posted to the blog soon.

### **DO YOU KNOW?**

Recently I was asked if I knew of any research relating to the successfulness (or otherwise) of acceleration for gifted students with a learning disability. If you know of research on this topic please could you email [jo@giftedresources.org](mailto:jo@giftedresources.org)

## WHAT'S IN THE IN TRAY?

These items have been received recently and can be found in the In Tray which is located on the Home page of Gifted Resources Website [www.giftedresources.org](http://www.giftedresources.org) The links in the newsletter are not live – please go to the In Tray to access them

If you would like information included in the newsletter and/or the In Tray please send to [contributions@giftedresources.org](mailto:contributions@giftedresources.org)

## FROM JENNIFER DEES, SAN FRANCISCO BAY AREA

Early this year, I started a new support group, Families of Early College Students - Bay Area (FECsBA). FECsBA is for parents of early college students (under 18, but most are quite a bit younger; youngest in our group is 10) in the San Francisco Bay Area, either those attending concurrently with high school or homeschooling, or those attending full-time.

I've recently started a "news watch" blog for items of interest to this group, but made it part of our public Web site. Anyone can subscribe to this feed either through a news reader (like Google Reader) or through email newsletter (mailed once daily when there are

posts).

Although the news items will be of greatest interest to those in the Bay area or California, there are also many items of national interest. Here are the stories we've linked to in the past week or so:

- Success of Dual Enrollment & Early College High School programs
- UC Berkeley enrolls more out-of-state students; racial diversity may suffer
- Opinion: California's higher-education debacle
- Education Dept. releases template for college net-price calculator
- Students study the cost of college
- Early college boosts opportunity for homeschooled teens
- Community College Week at Yerba Buena Gardens in San Francisco
- Editorial: Squeezed out of college in California
- Poet Laureate praises College of Marin and other CCs
- Article: "Early College: What and Why?"
- Merits of Leaving High School Early for College?
- College Enrollment Hits All-Time High
- U of C to increase financial aid
- 13yo student thrives at Univ. of Connecticut

If you'd like to check it out or sign up for a free subscription to these alerts, please see <<http://fecsba.>>.

Thank you,  
Jennifer Dees
